

Standardised Report for Pulmonary NEN

Summary

Other:

pTNM (UICC, 8th edition): pTx, pNx, pLx, pVx, Pnx, Gx, Rx

Clinics and Macroscopy

Type of resection:

Other:

Specimen laterality:

Tumor site: (select all that apply)

Upper Lobe of lung:

Middle lobe of lung:

Lower lobe of lung:

Bronchus, main:

Bronchus, intermedius:

Bronchus, lobar (specify):

Other (specify):

Not specified:

Tumor focality:

Distance to the visceral pleura: cm

Distance to the bronchial resection margin: cm

Maxumim diameter: cm

Tumor Type and Local Extension

Histological type and grade:

Specify type:

Mitotic rate:

Add number (2 mm²):

Necrosis:

Infiltration level:

Other:

Resection margins:

- If R0: Minimal distance to resection margin:
- Name margin:

L, V, Pn

Lymphatic vessel invasion:

Vascular invasion:

Perineural invasion:

Standardised Report for Pulmonary NEN

Regional lymph nodes

Number of lymph nodes examined:
Number of lymph nodes with metastasis:
Location of lymph nodes with metastasis:

Biomarkers

Synaptophysin:	<i>If positive:</i>	<i>% of positive tumor cells.</i>
Chromogranin-A:	<i>If positive:</i>	<i>% of positive tumor cells.</i>
Ki-67: %		

Optional Markers

Keratin:	<i>If positive:</i>	<i>% of pos. tumor cells.</i>
Type of keratin:		
CD56:	<i>If positive:</i>	<i>% of pos. tumor cells.</i>
SStr2:	<i>If positive:</i>	<i>% of pos. tumor cells.</i>
P53:		
Rb:		
Hormone expression:
